Company Capabilities

2

AI Platform • Smart Learning • Immersive VR/AR/XR Experiences (Spatial Computing) •
AI-driven Digital Experiences (UX Design) • Integrated ICT Services & Solutions

AI Platform & Services

Our company has completed an **NDA** and **MOU** for an international joint technology development project with the Artificial Intelligence (AI) Research Institute of Institut Teknologi Bandung (ITB), which ranks 2nd overall in Indonesia and 1st among engineering universities. We are currently advancing the project to develop Semantic AI technology.

* ganai is a customized AI automation platform developed by our company.

ganai AI Platform

Where AI Breakthroughs Shape the future! 11

We combine 29 years of expertise with AI to deliver faster and more perfect solutions.

AI-Driven Workforce

We cultivate AI-driven talent and integrate them into real-world applications to deliver high-quality outcomes in an evolving paradigm

School Finder

(KITAGAPai Platform)

Based on databases and AI algorithms, we provide a specialized search and comparison service, deliver key information, and offer the optimal school recommendation service tailored to user needs

OrenjiKaramel

(Spatial Computing)

Development of AI-Based 3D Interaction Features for Apple Vision Pro. Enhances user interaction and immersive experiences, transforming visual engagement through advanced 3D visualization

AI Chatbot-Tech

(KITAGAPai Platform)

AI chatbot development requires advanced task support and personalized services that cannot be fully addressed by conventional large language models (LLMs)

AIQA

(Document Analysis & Automation Service)

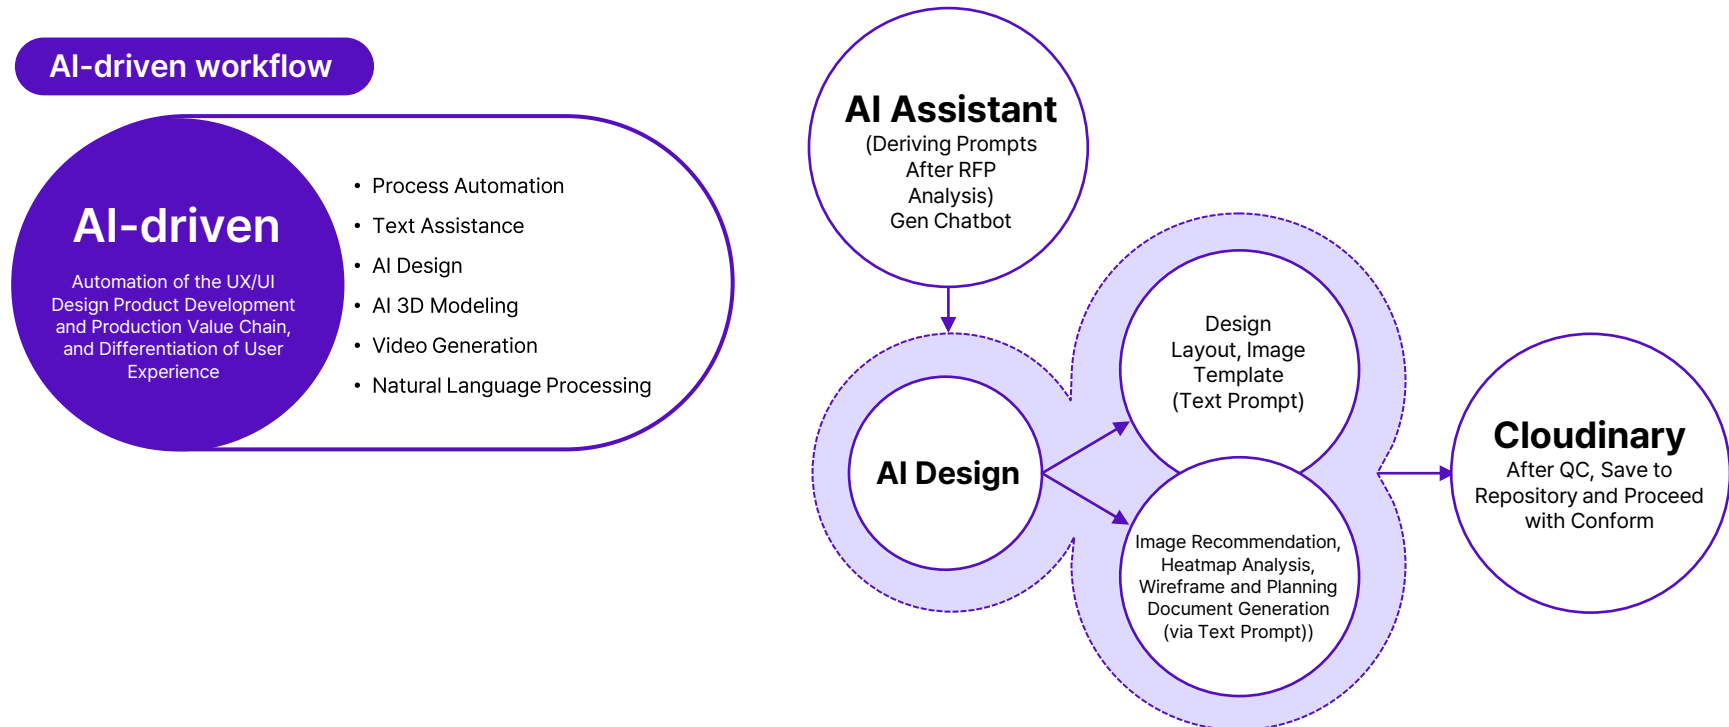

We provide an LLMops-based hyperautomation solution to optimize lead time efficiency for software companies. Through automation, we enhance productivity and efficiency

Enterprise AI Content Solutions Inquiry

When our technology combines with our clients' ideas, we deliver customized AI solutions

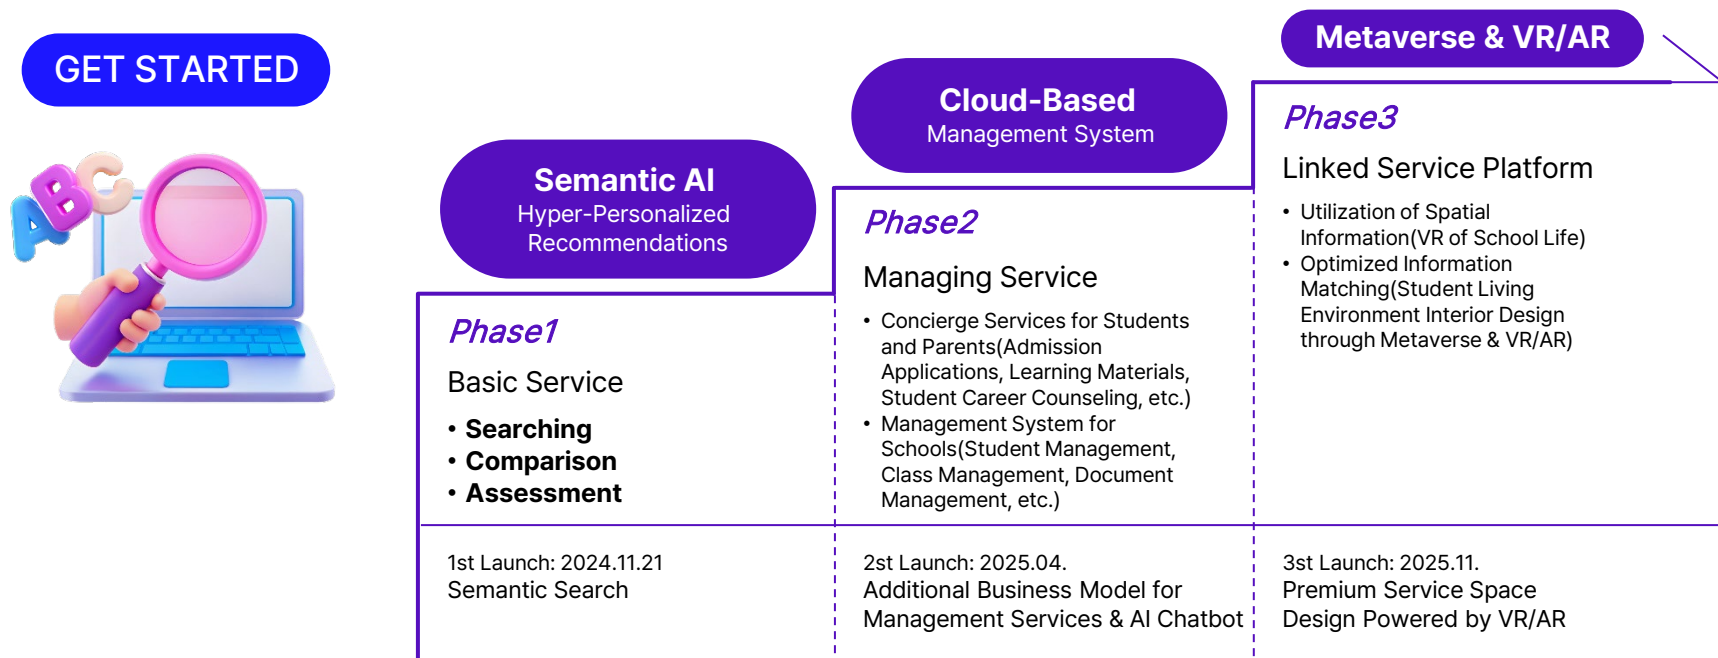

AI-Driven Workforce

AI experts with existing expertise oversee the quality control (QC) of design and planning, ensuring a seamless process from request to result validation. This workflow maximizes efficiency while guaranteeing consistent quality.

School Finder (KITAGAPai Platform)

A customized search and recommendation service where AI helps Indonesian elementary school parents find and compare preferred schools, while also providing a Q&A feature for their inquiries. To enable this, a RAG (Retrieval-Augmented Generation) system has been implemented to train the AI on Indonesian language and educational institution data.

Where AI Breakthroughs Shape the future! 21

EXPORT

Winner of the 57th Trade Day
Awarded 2020 Export Tower

HyoukJun Jang Receives KITA
Chairman's Award

Since 2011, we have established a UI/UX-based technology industrial zone in Indonesia, a key country in the New Southern Policy, to compete with the high-end market in Southeast Asia, which had been monopolized by countries in the Americas and Europe, thus enhancing our image as an export powerhouse. We have made fundamental innovations in exporting Korean talents and global platforms by recruiting multinational talents, and contributed to the development of national industries and economies by expanding global markets through innovative responses to the digital paradigm, including successful localization by establishing remote work processes.

Export ratio Compared to
Revenue (as is 2024)

42.5%

Generated revenue thru exporting
for 7 years (2017~2024)

106.8억

Selected as a 2015 High Growth
Company "Gazelles" Export Capacity
Enhancement Project
(Small Mid Sized Business Administration)

Companies with a 3-year average revenue growth rate or full-time employee growth rate of at least 20%
60-70% domestic companies with strong job creation potential,
high potential to grow into mid-sized companies, and SMEs with
less than KRW 10 billion in revenue that have grown in the
domestic market

User Experience (UX) / Communication UX

Augmentative Alternative Communication App my AAC

Application UX for socially disadvantaged

[NC Cultural Foundation](#)

This is an augmentative and alternative communication service that helps people who have difficulty communicating. We have complied with mobile accessibility guidelines to ensure that all users experience no inconvenience when using the mobile application. By acquiring the Quality Certification Mark (MA), which symbolizes this compliance, we developed a service that can be conveniently used not only by the disabled but also by the elderly. Equipped with NC(NCSOFT) AI technology, it provides natural artificial intelligence voices from speakers of all ages and genders. Additionally, all functions and services are provided free of charge.

Overview

데일리 탄소계산기 서비스

카본트리프는 2020년 10월 28일 정부가 선정한 2050 탄소중립 추진을 위한 기존의 탄소계산기과 차별화하여 단일성 계산기가 아닌 사용자에 지속적 탄소중립을 위해 능동적 행동을 실천할 수 있도록 일상생활에서 개인이 사용하는 탄소를 목록별로 관리하여 일, 월별로 시각적으로 탄소 배출량을 시각적으로 나타내어 경각심을 높여주고 탄소 배출을 줄일 수 있도록 도와주는 앱입니다.

카본트리프 앱 소개서

Overview Background Information Target Users Key Insights Concept UI 3rd Strategy

Why Do We NEED IT?

“기후위기 대응을 위한 2050 탄소중립 시나리오의 현실화, 탄소중립을 위한 행동이 필요한 시기”

• 저탄소 생활양식, 탄소중립 국민 실천 운동 등 탄소중립을 위한 제도적, 기업적, 민간적 노력필요
• 정부, 기업, 개인 모두 탄소중립과 관련된 생활에 대한 인식 제고 및 실천을 유도할 필요성은 제기

Target Users

환경, 윤리 이슈에 관심이 많고
지속가능한 라이프 스타일을 추구하는 MZ세대

다양하게 탄소하고 익숙한 MZ세대부터 다양한 행위자 및 인증 활동이 많아지고 있는 추세.
가치소비로 지속 가능한 라이프 스타일, 환경, 윤리적 이슈에 민감하게 반응하는 트렌드

MZ의 행위자	Welcome Generation의 트렌드
• 무지출 실천자	• 의닐아름
• 비건 실천자	• 비건 라이프
• 제로 웨이스트 실천자	• 미코노미 (Micronomy)
• 물가내 함박인	• 친환경을 넘어 친환경

카본트리프

eWIDEPLUS built the "Carbon Tree Calculator" with the National Academy of Forestry Sciences before environmental issues became common place

After carrying out many carbon-related projects, we wanted to create more services, so we are creating our own carbon calculator "Carbon Trip"
